#### Report of Independent Auditors

Management and Trustees
Texas Biomedical Research Institute

#### **Report on the Financial Statements**

We have audited the accompanying consolidated financial statements of Texas Biomedical Research Institute, which comprise the consolidated balance sheets as of December 31, 2012 and 2011, and the related consolidated statements of unrestricted revenues, expenses, and other changes in unrestricted net assets; changes in net assets; and cash flows for the years then ended, and the related notes to the financial statements.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free of material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement.

An audit involves performing procedures to obtain evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant

accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

#### **Opinion**

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Texas Biomedical Research Institute as of December 31, 2012 and 2011, and the changes in its net assets and its cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

#### **Supplemental Information**

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The supplemental information is presented for purposes of additional analysis and is not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the information is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we also have issued our report dated June 7, 2013, on our consideration of Texas Biomedical Research Institute's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Texas Biomedical Research Institute's internal control over financial reporting and compliance.

#### Notes to Consolidated Financial Statements

December 31, 2012

#### 1. Significant Accounting Policies

#### **Nature of Operations**

Creation of Texas Biomedical Research Institute (Texas Biomed) was by trust indenture dated December 16, 1941, and restated November 1, 1993, appointing trustees and specifying the scientific, educational, and charitable purposes of Texas Biomed. Texas Biomed conducts scientific research and educational programs to improve the health of the global community. On February 1, 2011, the organization's name was changed from Southwest Foundation for Biomedical Research to Texas Biomedical Research Institute.

In 2008, Texas Biomed helped create a new for-profit pharmaceutical development corporation named Evestra, Inc. (Evestra). The staff of the organic chemistry department of Texas Biomed and with certain equipment, supplies, intellectual property and a National Institutes of Health (NIH) contract for steroid manufacturing were transferred to Evestra. As of December 31, 2011, Texas Biomed owned a majority stock interest (52.6%) in Evestra and, as a result, Evestra's financial information is consolidated with Texas Biomed's financial information. As of December 31, 2012, Texas Biomed owns 47.8% of Evestra's common stock and therefore no longer owns a majority stock interest in Evestra, and Evestra's financial information and operations are not consolidated with Texas Biomed at December 31, 2013.

#### **Principles of Consolidation**

For the year ended December 31, 2011, the consolidated financial statements include the accounts of Texas Biomedical Research Institute; the Tom Slick Memorial Trust for Texas Biomedical Research Institute, which is controlled by the Board of Trustees of Texas Biomed; and Evestra, Inc.

For the year ended December 31, 2012, the consolidated financial statements include the accounts of Texas Biomedical Research Institute and the Tom Slick Memorial Trust for Texas Biomedical Research Institute, which is controlled by the Board of Trustees of Texas Biomed.

The Tom Slick Trust is held in the Texas Biomed endowment fund. Each month, in accordance with Texas Biomed's board-adopted spending policy, the Tom Slick Trust contributes 4% of its earnings to Texas Biomed to be used for operations. This 4% is recorded as an expense of the Tom Slick Trust and is included as revenue to Texas Biomed. Upon consolidation, these entries should be completely eliminated. From 2007 through 2011, this amount was not eliminated in the consolidated financial statements. This resulted in a cumulative understatement of total

## Notes to Consolidated Financial Statements (continued)

#### 1. Significant Accounting Policies (continued)

consolidated unrestricted net assets of \$2,418,862. These prior-year amounts have been eliminated as of December 31, 2012, and are reflected as an increase to other revenue and a decrease to accounts payable. The impact of the unrecorded eliminating entries were not material to any of the prior years' financial statements and the recording of these entries in the current year is not material to the current year financial statements. As of December 31, 2012, all intercompany accounts and transactions have been eliminated in consolidation.

#### **Reclassification of Prior-Year Balances**

Certain prior-year amounts within the consolidated statement of cash flows have been reclassified to conform to the 2012 presentation.

#### **Use of Estimates**

The preparation of consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

#### **Cash and Cash Equivalents**

Cash and cash equivalents include non-interest-bearing and interest-bearing demand deposits, as well as a money market sweep account, which have maturities of less than 90 days.

#### **Contracts and Grants-in-Aid for Research Projects**

Texas Biomed recognizes as receivables amounts awarded by the National Institutes of Health and other organizations for research projects. These receivables reflect amounts expected to be earned within the next grant year. The amounts are treated as unearned revenue until expenditures are made under terms of the awards, at which time revenues are recognized to the extent of agreed participation by the awarding organization.

#### Notes to Consolidated Financial Statements (continued)

#### **1. Significant Accounting Policies (continued)**

#### **Assets Limited as to Use and Investments**

Accounting Standards Codification (ASC) 958, *Not-for-Profit Entities*, requires that the net appreciation on endowment funds whose income is unrestricted as to use be reported as unrestricted net assets unless such net appreciation has been restricted by the donor or by law. In those cases where a donor has placed specific restrictions on the use of endowment income, any related net appreciation is also subject to the same restriction and is reported as a part of temporarily restricted net assets until such time as the restriction has been met.

#### **Assets Limited as to Use and Investments**

Realized gains and losses on investments are recognized in the period in which they occur. Investment income or loss (including realized gains and losses on investments, interest, and dividends) is included in unrestricted net assets unless the income or loss is restricted by donor or law. Market appreciation or decreases on permanently restricted gifts are classified in the accompanying consolidated financial statements as part of unrestricted or temporarily restricted net assets, as stipulated by donor.

The investment objectives for Texas Biomed's endowment funds are to preserve the principal value of the endowment funds in both absolute and real terms, and to maximize over the long term the total rate of return (cash income plus market appreciation) earned by the endowment funds, without assuming an unreasonable degree of risk. Accordingly, the Board of Trustees has adopted a spending formula for determining the maximum that can be expended annually, which is 4% of the trailing 12-quarter rolling average value of the endowment funds computed annually in the years ended December 31, 2012 and 2011.

Assets limited as to use primarily include assets designated for capital expenditures and research, scientific recruitment, and endowment funds by the donor or set aside by the Board of Trustees.

Endowment funds are invested primarily in U.S. equities, global equities, U.S. fixed-income securities, global fixed-income securities, alternative investments, emerging markets equities, cash, and cash equivalents. The vehicles for these investments include purchases of individual stocks, purchases of mutual funds, and investments in limited partnerships and trusts. The basis for the investments is the aggregate fair market value.

#### Notes to Consolidated Financial Statements (continued)

#### 1. Significant Accounting Policies (continued)

A portion of the endowment funds are invested in nine limited partnerships and two trusts. These amounts are recorded at fair value, based on Texas Biomed's applicable ownership percentage in net assets of the limited partnerships and trusts. The investment income or loss, including realized gains and losses, unrealized gains and losses, interest income, and dividend income, from Texas Biomed's investment in these limited partnerships and trusts is included within unrestricted and temporarily restricted investment income and net realized/unrealized gains, in accordance with donor restrictions.

#### **Donor-Restricted Gifts**

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received, and that amount is then treated as the basis of the asset. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the statements of changes in net assets as net assets released from program restrictions.

#### **Temporarily and Permanently Restricted Net Assets**

Temporarily restricted net assets are those whose use by Texas Biomed has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained by Texas Biomed in perpetuity. Income from the permanently restricted net assets that can be used for current operations, subject to donor restrictions on use, is reflected as an increase to unrestricted net assets. This accounting policy was also used for the Tom Slick Memorial Trust consistent with the terms of the documents establishing that trust, with income from the permanently restricted corpus being recorded as unrestricted income.

#### Property, Plant, and Equipment

Property, plant, and equipment are carried at cost or at estimated fair value on dates contributed.

## Notes to Consolidated Financial Statements (continued)

#### 1. Significant Accounting Policies (continued)

Texas Biomed provides for depreciation and amortization of property, plant, and equipment at amounts calculated to amortize the cost of the assets over their estimated useful lives, using the straight-line method. The estimated useful lives are as follows:

Buildings and improvements Fixtures and equipment

15–40 years

3–8 years

The general policy of Texas Biomed is to relieve property accounts and related allowances for depreciation and amortization for properties retired or otherwise disposed of at amounts included therein for such properties, and any gain or loss resulting therefrom is included in the statements of unrestricted revenues, expenses, and other changes in unrestricted net assets.

Expenditures for maintenance and repairs are charged to costs or expenses; renewals and betterments are capitalized.

Property, plant, and equipment acquired by federal funds are made available for use in other similar federally sponsored projects or programs as workload permits. The property, plant, and equipment acquired with federal funds are subject to use and disposition conditions, including possible repayments to the federal government if assets are disposed of. The amount of total property, plant, and equipment acquired with federal funds, less accumulated depreciation, is \$16,348,397 and \$14,746,456 as of December 31, 2012 and 2011, respectively.

In early 2012, Texas Biomed began construction a new 70,000-square-foot building that will house scientific laboratories, scientific and administrative offices, and space for supporting departments. Total cost of the building is approximately \$27,000,000. Donor pledges, payable over five to seven years, have been received to cover the cost of construction. A \$15,000,000 revolving line of credit was established to borrow the funds required to build the facility now, to be repaid with the future pledge payments. Substantial completion is scheduled for December 2013 with occupancy in the first quarter of 2014. No amount has been drawn on the revolving line of credit as of December 31, 2012.

Gifts of long-lived assets such as land, buildings, or equipment are reported as unrestricted support unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as temporarily restricted support. Absent explicit donor stipulations, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

#### Notes to Consolidated Financial Statements (continued)

#### 1. Significant Accounting Policies (continued)

#### **Retirement Plan**

Texas Biomed's retirement plan is available to all active full-time employees and those who work a minimum of 1,000 hours, immediately upon employment. Contributions to the plan consist of employer payments ranging from 7% to 9% of such employee's base salary up to the maximum amount allowed under Section 401(a)(17) of the Internal Revenue Code (Code) based on years of service. Employees are fully vested after the completion of three years of service. The plan is carried with the Teachers Insurance and Annuity Association and College Retirement Equities Fund and is a defined contribution (money-purchase) plan. Payments to the plan were allocated to the various grants, contracts, and departments of Texas Biomed in the amount of \$1,838,970 and \$1,845,613 in 2012 and 2011, respectively.

Texas Biomed adopted the Supplemental Executive Retirement Plan, a nonqualified defined contribution plan, effective as of January 1, 1999. The plan provides nonqualified deferred compensation benefits for Texas Biomed's president, chief financial officer, and chief scientific officer. The Board of Trustees may designate, from time to time, other selected management or highly compensated employees of Texas Biomed as eligible to participate in the plan. Contributions to the plan consist of employer payments ranging from 7% to 9% of employee compensation over the maximum amount allowed under Section 401(a)(17) of the Code. Employer contributions to the plan of \$28,996 and \$18,843 were made in 2012 and 2011, respectively.

#### **Income Taxes**

Texas Biomed is exempt from federal income taxes under Section 501(a) of the Code, as an organization described under Section 501(c)(3) of the Code. This status was reaffirmed in the process of converting to a corporation. This exemption does not apply to unrelated business income, as defined by Section 512(a)(1) of the Code, which is subject to federal income tax. Texas Biomed has no internal tax liability results from such unrelated business income in 2012 or 2011. U.S. generally accepted accounting principles require management to evaluate uncertain tax positions taken by Texas Biomed. The financial statement effects of a tax position are recognized when the position is more likely than not, based on its technical merits, to be sustained upon examination by the IRS. Management has analyzed the tax positions taken by Texas Biomed and has concluded that, as of December 31, 2012, there are no uncertain positions taken or expected to be taken. Texas Biomed has recognized no interest or penalties related to

## Notes to Consolidated Financial Statements (continued)

#### 1. Significant Accounting Policies (continued)

uncertain tax positions. Texas Biomed is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Texas Biomed believes it is no longer subject to income tax examinations for years prior to 2008.

#### **Investment Income**

Texas Biomed reports investment income net of applicable management fees. For the years ended December 31, 2012 and 2011, management fees were \$429,234 and \$345,887, respectively.

In May 2011, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs. ASU 2011-04 amended ASC 820, Fair Value Measurement, to converge the fair value measurement guidance in U.S. generally accepted accounting principles (GAAP) and International Financial Reporting Standards (IFRSs). Some of the amendments clarify the application of existing fair value measurement requirements, while other amendments change a particular principle in ASC 820. In addition, ASU 2011-04 requires additional fair value disclosures (although certain of these disclosures will not be required for nonpublic entities). The amendments are to be applied prospectively and are effective for annual periods beginning after December 15, 2011. Since ASU 2011-04 only affects fair value measurement disclosures, its adoption did not have an effect on Texas Biomed's net assets or its changes in net assets.

#### 2. Investments

Investments in equity and debt securities with determinable fair value are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for further discussion. The composition of these securities is set forth as follows:

		December 31					
		2012		2011			
Mutual funds	¢	32,741,788	ф	20 201 200			
Cash and cash equivalents	φ	6,426,274	Ф	5,374,490			
Limited partnerships and trusts		59,276,052		56,627,896			
-	\$	98,444,114	\$	90,383,695			
	Ψ	70,777,117	Ψ	70,303,073	:		

## Notes to Consolidated Financial Statements (continued)

#### 2. Investments (continued)

Investments traded on a national securities exchange are valued at the last reported sales price on the last business day of the year. If no sale was reported on that date, they are valued at the last reported bid price.

Limited partnerships and trusts are valued at the net asset values of units held at year-end. Purchases and sales of securities are recorded as of the trade date at cost. Realized gains and losses on sales of securities are determined on the basis of average costs. Interest income is recognized on the accrual basis. Dividend income is recognized on the ex-dividend date.

Texas Biomed holds an equity interest in limited partnerships and trusts that are operated by external investment managers. The holdings in the limited partnerships and trusts primarily comprise publicly traded securities with readily determinable market values. The risks associated with these investments are numerous and include nonregulation risk, managerial risk, minimal liquidity, and limited transparency.

Investment income earned by Texas Biomed and its allocation among net asset classifications are as follows:

	December 31				
	2012	2011			
Dividends and interest earned on investments Net realized gain on investments reported at fair value	\$ 1,551,989 792,221	\$ 1,850,565 1,285,660			
Net unrealized gain (loss) on investments reported at fair value  Less investment expenses netted against income	9,963,267 (469,556)	(2,341,214) (267,450)			
Total investment income	\$ 11,837,921	\$ 527,561			
Net asset classification of investment income: Unrestricted Temporarily restricted Permanently restricted	\$ 8,360,921 3,477,000	\$ 386,756 140,805			
Total investment income	\$ 11,837,921	\$ 527,561			

## Notes to Consolidated Financial Statements (continued)

#### 2. Investments (continued)

Investments in oil and gas mineral interests and common stock of Evestra as of December 31, 2012, are considered other investments and are stated at the lower of cost or fair value. The stated value of the oil and gas mineral interests are \$-0- as of December 31, 2012 and 2011. The investment in Evestra is stated at cost.

#### 3. Fair Value Measurements

ASC 820 establishes a framework for measuring fair value. The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value which are either observable or unobservable. Observable inputs reflect assumptions that market participants would use in pricing an asset or liability based on market data obtained from independent sources, while unobservable inputs reflect a reporting entity's pricing based upon management's own market assumptions. The fair value hierarchy under ASC 820 consists of the following three levels:

Level 1 – Unadjusted quoted prices in active markets for identical assets and liabilities that are accessible to the reporting entity at the measurement date.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own judgment about the assumptions market participants would use in pricing the asset or liability, including assumptions about risk.

## Notes to Consolidated Financial Statements (continued)

#### 3. Fair Value Measurements (continued)

A financial instrument's categorization within the valuation hierarchy is based on the lowest level of input that is significant to the fair value measurement. The following tables present the financial instruments carried at fair value as of December 31, 2012 and 2011, by caption on the consolidated balance sheets and by level in the ASC 820 fair value hierarchy. None of Texas Biomed's holdings are concentrated in one specific industry or investment type.

International equities		21,727,436		_		21,727,436		_
Global fixed-income securities		8,614,805		_		8,614,805		_
Hedge funds		10,669,630		_				10,669,630
Total investments		90,383,695		33,755,800		45,958,265		10,669,630
Funds held in trust by others		2,499,405		_		_		2,499,405
Total	\$	92,883,100	\$	33,755,800	\$	45,958,265	\$	13,169,035

The valuation methodologies used for instruments measured at fair value as presented in the table above are as follows:

Investments that are valued at quoted prices available in an active market and interestbearing cash are classified within Level 1 of the valuation hierarchy.

Investments in limited partnerships and trusts valued at the entities' net asset value were classified as Level 2 because substantially all the holdings of each entity are in securities traded in an active market; however, the value of the partnership or trust itself can only be derived based on those holdings in Level 1 investments. The table on the following page includes additional disclosures required by ASC 820 for the fair value measurements of investments in certain entities that calculate fair value based on net asset value per share.

Investments in hedge funds and funds held in trust of others were classified as Level 3 because the value of the partnership or trust itself cannot be determined. These valuations are based on Texas Biomed's deemed portion of net asset value (NAV) of the underlying assets.

## Notes to Consolidated Financial Statements (continued)

#### 3. Fair Value Measurements (continued)

Texas Biomed must rely on the investment managers to provide accurate pricing and NAV calculations. Texas Biomed takes necessary steps to obtain a comfort level with valuation procedures used by these investment managers.

Limited Partnerships and Trusts	Fair Value		Unfunded Commitments		Redemption Frequency	Redemption Notice Period
December 31, 2012 U.S. equities <sup>(a)</sup> International equities <sup>(b)</sup> Global fixed-income securities <sup>(c)</sup> Hedge funds <sup>(d)</sup>	\$	18,309,101 16,492,716 9,254,164 15,220,070 59,276,051	\$	- - - - -	Semiannually Monthly Daily–Monthly Monthly–Biannually	30 days 6–15 days 10–15 days 15–90 days
<b>December 31, 2011</b> U.S. equities <sup>(a)</sup> International equities <sup>(b)</sup> Global fixed-income securities <sup>(c)</sup> Hedge funds <sup>(d)</sup>	\$	15,616,024 21,727,437 8,614,805 10,669,630 56,627,896		- - - -	Semiannually Monthly Daily–Monthly Monthly–Biannually	30 days 6–15 days 10–15 days 65 days

<sup>&</sup>lt;sup>(a)</sup> U.S. equities include investments in a limited partnership that invests in publicly traded securities in the United States. Management of the partnership has the ability to manage the investment portfolio. The fair values of the investments in this category have been estimated using the asset value per share of the investments at December 31, 2012 and 2011.

<sup>(</sup>b) International equities include investments in a trust and a limited partnership that invest in international securities outside the United States. Management of the trust and partnership manage their respective investment portfolios. The fair values of the investments in this category have been estimated using the net asset value per share of the investments at December 31, 2012 and 2011.

<sup>&</sup>lt;sup>(c)</sup> Global fixed-income securities include investments in a trust and limited partnership that invest in fixed-income securities such as corporate and government bonds. Management of the trust and partnership manage their respective investment portfolios. The fair value of the investment in this category has been estimated using the net asset value per share of the investment at December 31, 2012 and 2011.

<sup>(</sup>d) Hedge funds include investments in limited partnerships that invest in securities and financial instruments of issuers. Management of the partnerships practice a conservative but flexible form of event-driven investing that favors safer, more predictable transactions while accepting lower expected returns. The fair value of the investments in this category has been estimated using the net asset value per share of the investment at December 31, 2012 and 2011.

## Notes to Consolidated Financial Statements (continued)

#### 3. Fair Value Measurements (continued)

#### **Level 3 Reconciliation**

The changes in assets measured at fair value for which Texas Biomed has used Level 3 inputs to determine fair value are as follows:

	Funds Held in Trust
	<b>Hedge Funds</b> by Others
Balance, December 31, 2010	\$ 3,631,816 \$ 2,351,073
Total (loss) gain included in the consolidated statement of changes in net assets	(362,186) 148,332
Purchases	8,400,000 -
Sales	(1,000,000) –
Balance, December 31, 2011	10,669,630 2,499,405
Total gain included in the consolidated statement of	
changes in net assets	1,270,440 114,164
Purchases	3,280,000 -
Balance, December 31, 2012	\$ 15,220,070 \$ 2,613,569

#### 4. Contributions Receivable

As of December 31, 2012 and 2011, Texas Biomed has received unconditional promises totaling \$7,314,033 and \$11,730,500, respectively. Unconditional promises are unrestricted or temporarily restricted by donors for capital construction, research, or faculty recruitment, and permanently restricted as endowment funds. The amounts are recorded at the present value of estimated future cash flows. Contributions receivable are due as follows at December 31:

	2012 2011
Less than one year One to five years	<b>\$ 3,245,300</b> \$ 4,266,000 <b>4,068,734</b> 7,464,500
Loss amount to reduce to present value	<b>7,314,034</b> 11,730,500
Less amount to reduce to present value (discount rate of 3.8% in 2012)	<b>135,917</b> 485,623
	<b>\$ 7,178,117</b> \$11,244,877

## Notes to Consolidated Financial Statements (continued)

#### 5. The Argyle Land, Buildings, and Equipment

Land, buildings, and equipment not used in the research operations of Texas Biomed are identified separately and valued at cost. Currently, this is limited to property leased to The Argyle Club (The Argyle).

The Argyle is a nonprofit organization operated as a social welfare organization. Membership in The Argyle requires initial and annual contributions to Texas Biomed. Texas Biomed leases a building, its contents, surrounding land, and a parking lot to The Argyle for a monthly rental of \$6,000.

#### 6. Funds Held in Trust by Others

Texas Biomed's interest in funds held in trust by others is included in net assets for the years ended December 31, 2012 and 2011. These funds are neither in the possession nor under the control of Texas Biomed. Despite these limitations, these funds cannot be used for any other purpose than to support Texas Biomed and are now included in Texas Biomed's assets in accordance with ASC 958-30, *Not-for-Profit Entities – Split-Interest Agreements*.

Trust at	<b>During the</b>
December 31	Year Ended
2012	December 31
(Market Value)	2012

Ruth Chapman Cowles and Andrew G. Cowles Memorial Trust:

Texas Biomed has a 10% interest in the income generated from this perpetual trust. The income from the trust is to be used primarily for postdoctoral fellowships.

\$ 2,613,569 \$ 114,164

Income from the fund held in trust by others is included in unrestricted net assets based on the original terms of the gift.

#### Notes to Consolidated Financial Statements (continued)

#### 7. Endowment Funds and Funds Functioning as Endowments

Texas Biomed holds donor-restricted and Board-designated endowment funds established primarily to fund specified activities for and within Texas Biomed and the research community as a whole. As required by U.S. generally accepted accounting principles, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

The Uniform Prudent Management of Institutional Funds Act provides statutory guidelines for management, investment, and expenditure of endowment funds held by charitable organizations, which apply in the absence of explicit donor stipulations. The intent of Texas Biomed is to preserve the historic dollar value of original permanently restricted gifts.

Texas Biomed classifies the historic value of donor-restricted gifts to be held in perpetuity as permanently restricted net assets. The remaining accumulated earnings of the donor-restricted endowment funds are classified as temporarily restricted net assets until those amounts are appropriated for expenditure.

## Notes to Consolidated Financial Statements (continued)

## 7. Endowment Funds and Funds Functioning as Endowments (continued)

Activity of endowments and funds functioning as endowments for the fiscal years ended December 31, 2012 and 2011, is as follows:

		Temporarily	<b>Permanently</b>

Texas Biomed has adopted investment and spending policies for endowment assets reflecting a disciplined, consistent management philosophy that accommodates reasonable and probable events. Preservation of capital and return on investment are of primary importance. The primary investment objective is to preserve financial assets generated through donor gifts, so that the proceeds may be distributed for the purposes intended by the donors and to the benefit of Texas Biomed, at a level of risk deemed acceptable by the Board of Trustees.

To satisfy its long-term rate-of-return objectives, Texas Biomed relies on an investment policy outlined by its Investment Committee, which includes a desired mix of international and U.S. bonds, stocks, alternative investments, and cash and cash equivalents. Texas Biomed, at the direction of its Investment Committee, rebalances the portfolio periodically to maintain the desired distribution of assets within each asset class.

Texas Biomed has adopted spending policies allowing endowment funds to be utilized only in accordance with the purposes established by the donor or Board of Trustees designation.

#### Notes to Consolidated Financial Statements (continued)

#### 8. Long-Term Debt

#### **Evestra Convertible Promissory Notes and Accrued Interest**

In 2008, Evestra raised \$4,350,000 through the issuance of convertible promissory notes (First Notes) of which \$500,000 were held by Texas Biomed and \$3,850,000 were held by external parties. The First Notes matured 30 months after issuance and accrued simple interest at 10% per annum. Interest payable at December 31, 2011, was \$105,000. In 2011, the Executive Committee of the Board of Trustees elected to convert the First Notes held by Texas Biomed into Evestra common stock. In addition, \$3,550,000 of the First Notes were also converted to Evestra common stock by external parties in 2011 and an additional \$100,000 converted in 2012.

In 2009, Evestra received cash proceeds of \$1,200,000 through the additional issuance of convertible promissory notes that are held by external parties (Second Notes). The Second Notes matured on April 30, 2012, and accrued simple interest at 10% per annum. Total interest payable for the Second Notes at December 31, 2011, was \$347,119.

In 2011, Evestra received cash proceeds of \$750,000 through the additional issuance of convertible promissory notes to Texas Biomed (Third Notes). The Third Notes accrued simple interest at 4% per annum. Total interest payable for the Third Notes at December 31, 2011, was \$14,548. The fair value of all of the promissory notes and accrued interest was \$1,952,119 at December 31, 2011.

In 2012, the Executive Committee of the Board of Trustees elected to convert all outstanding Second and Third Notes held by Texas Biomed into Evestra common stock.

As of December 31, 2012, Texas Biomedical Research Institute has reduced its investment in Evestra to 47.8% and is no longer the majority shareholder.

#### **Line of Credit**

Texas Biomed has a \$2,000,000 line of credit available through August 2013. No amount has been drawn as of December 31, 2012 or 2011.

## Notes to Consolidated Financial Statements (continued)

#### 9. Contingencies

Texas Biomed is involved in various claims and legal actions arising in the ordinary course of business. In the opinion of management, the ultimate disposition of these matters will not have a material adverse effect on Texas Biomed's consolidated financial position.

#### 10. Subsequent Events

Texas Biomed has evaluated subsequent events through June 7, 2013, the date the accompanying consolidated financial statements were available to be issued.

Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements

Performed in Accordance With *Government Auditing Standards* 

Management and Trustees
Texas Biomedical Research Institute

We have audited, in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Texas Biomedical Research Institute, which comprise the consolidated statement of financial position as of December 31, 2012, and the related consolidated statements of activities and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated June 7, 2013.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Texas Biomedical Research Institute's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Texas Biomedical Research Institute's internal control. Accordingly, we do not express an opinion on the effectiveness of Texas Biomedical Research Institute's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

1303-1050092

42

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Texas Biomedical Research Institute's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Report of Independent Auditors on Compliance With Requirements That Could Have a Direct and Material Effect on Each Major Program and on Internal Control Over Compliance in Accordance With OMB Circular A-133

Management and Trustees Texas Biomedical Research Institute

#### Report on Compliance for Each Major Federal Program

We have audited Texas Biomedical Research Institute's compliance with the types of compliance requirements described in the US Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that could have a direct and material effect on each of Texas Biomedical Research Institute's major federal programs for the year ended December 31, 2012. Texas Biomedical Research Institute's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Texas Biomedical Research Institute's major federal programs based on our audit of the types of compliance requirements referred to above.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Texas Biomedical Research Institute's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Texas Biomedical Research Institute's compliance.

Opinion on Each Major Federal Program

In our opinion, Texas Biomedical Research Institute complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2012.

#### **Report on Internal Control Over Compliance**

Management of Texas Biomedical Research Institute is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Texas Biomedical Research Institute's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Texas Biomedical Research Institute's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

1303-1050092 4

45

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

#### Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

We have audited the financial statements of Texas Biomedical Research Institute as of and for the year ended December 31, 2012, and have issued our report thereon dated June 7, 2013, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the schedule of expenditure of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

Total U.S. DEPARTMENT OF HEALTH AND HUMAN SERVICES				\$ 37,047,871
TOTAL RESEARCH AND DEVELOPMENT CLUSTER				38,807,446
TOTAL EXPENDITURES OF FEDERAL AWARDS				\$ 38,807,446

#### Notes to Schedule of Expenditures of Federal Awards

December 31, 2012

#### 1. Basis of Presentation

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Texas Biomedical Research Institute (Texas Biomed) and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the consolidated financial statements.

#### 2. Reconciliation to Financial Statements

Total federal award expenditures

Texas Biomed recognizes revenues from grants and contracts at the time eligible direct and indirect costs are incurred under terms of the awards and recognized as expenditures. Revenue recognized from expenditure of federal awards is reconciled to Texas Biomed's consolidated statement of unrestricted revenues, expenses, and other changes in unrestricted net assets as follows:

Revenues reported in Texas Biomed's consolidated
financial statements:
Grants in aid
Contracts

5,287,647
40,770,047
Less amounts of nonfederal awards
1,962,601

\$ 38,807,446

# Notes to Schedule of Expenditures of Federal Awards (continued)

#### 3. Subrecipients

Of the federal expenditures presented in the schedule, Texas Biomed provided federal awards to subrecipients as follows:

D TVI	Contract/ Grant	Federal CFDA	Amount Provided to
Program Title	Number	Number	Subrecipients
Therapeutic Intervention Crimean Congo Ebola Lasso	4325	12.300	\$ 295,136
Genetics of brain structure and function	1496	93.242	8
Identification of Novel MicroRNAs Assoc with Brain Structure and Function	4232	93.242	24,066
Mapping Methods for Specificity in Schistosoma	4357	93.242	14,863
Southwest regional primate research center	3500	93.389	46,638
Genetics of atherosclerosis	4097	93.837	17,473
Strong heart family study	1107	93.837	822
Genetic epidemiology of chagas	4190	93.837	158,771
Investigative genomics of vanin gene expression in relation to CVD risk	4241	93.837	54,251
Bone structural integrity profiling to advance skeletal genetics and biomechanics	4297	93.846	354,572
Genetics of bone structure and metabolism	4195	93.846	202,470
Gene networks of differential risk of kidney damage by long-term diabetes	4318	93.847	23,374

# Notes to Schedule of Expenditures of Federal Awards (continued)

### **3. Subrecipients (continued)**

Program Title	Contract/ Grant Number	Federal CFDA Number	Amount Provided to Subrecipients	
D of functional variants in type 2 diabetes genes in Mexican Americans	4193	93.847	\$ 134,699	
Genetics of gallbladder disease	4116	93.847	49,515	
Identification of regulatory variants in novel candidate genes for diabetes	4028	93.847	15,416	
Large-scale methylation profiling in metabolic syndrome phenotypes	4242	93.847	13,751	
Copy number variation in malaria parasite	4017	93.855	66,967	
Genetic Analysis of Host	4332	93.855	160,004	
Mapping drug resistant genes in plasmodium falciparum	1112	93.856	83,116	
Therapy of Dengue with defied antibodies	4353	93.865	15,930 \$ 1,731,842	

# Schedule of Findings and Questioned Costs

Year Ended December 31, 2012

#### Part I—Summary of Auditor's Results

#### **Financial Statements Section**

Type of auditor's report issued (unmodified, qualified, adverse or disclaimer):	Unmodified			
Internal control over financial reporting:				
Material weakness(es) identified?		yes	X	no
Significant deficiency(ies) identified?		yes	X	none reported
Noncompliance material to financial statements noted?		yes	X	no
Federal Awards Section				
Internal control over major programs:				
Material weakness(es) identified?		yes	X	no
Significant deficiency(ies) identified?		yes	X	none reported
Type of auditor's report issued on compliance for major programs (unmodified, qualified, adverse or disclaimer):			Unmodi	fied
Any audit findings disclosed that are required to be reported in accordance with section .510(a) of OMB Circular A-133?		yes	X	no

### Summary Schedule of Prior Audit Findings

Year Ended December 31, 2012

#### Finding 2010-01 - Reporting - Section 1512 reporting

During 2011, the Chief Financial Officer facilitated staff implementation of processes to ensure adequate documentation is prepared and retained for the quarterly Section 1512 reporting and that Section 1512 reports are reviewed for accuracy prior to submission.

#### Ernst & Young LLP

#### Assurance | Tax | Transactions | Advisory

#### About Ernst & Young

Ernst & Young is a global leader in assurance, tax, transaction and advisory services.
Worldwide, our 152,000 people are united by our shared values and an unwavering commitment to quality. We make a difference by helping our people, our clients and our wider communities achieve their potential.

For more information, please visit www.ey.com.

Ernst & Young refers to the global organization of member firms of Ernst & Young Global Limited, each of which is a separate legal entity.

Ernst & Young Global Limited, a UK company limited by guarantee, does not provide services to clients. This Report has been prepared by Ernst & Young LLP, a client serving member firm located in the United States.
