

LESSON 1: MAPPING PULMO PARK | Activity 1B: Reverse Lung Dissection

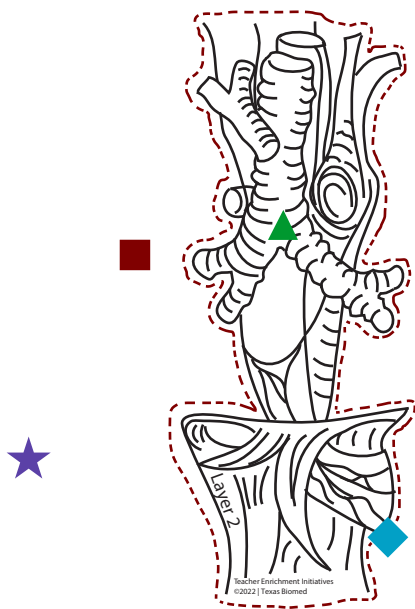

Layers of the Lungs

"Layers of the Lungs"
Layer One: Ribs and Vertebrae, #1
 (Assemble ribs and sternum #1 and #2 by taping or gluing together)

"Layers of the Lungs"
Layer One: Ribs and Vertebrae, #2
 (Assemble ribs and sternum #1 and #2 by taping or gluing together)

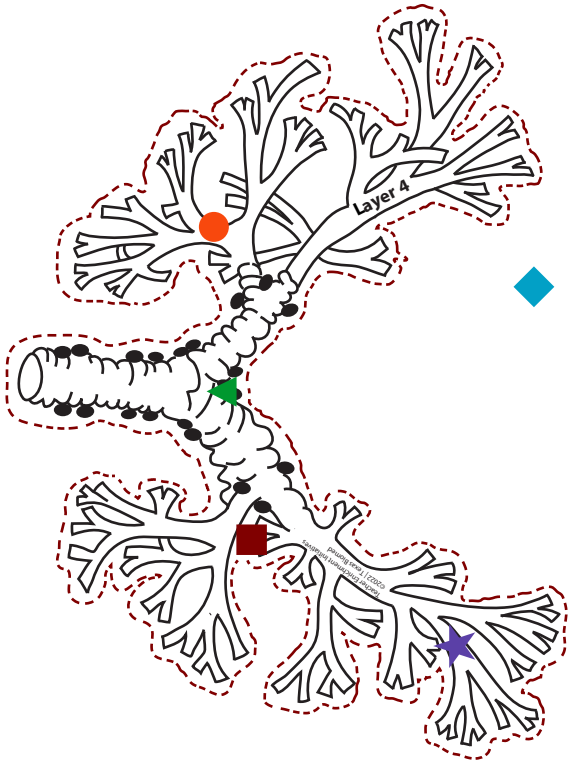

"Layers of the Lungs"
Layer Two: Mediastinum and Diaphragm

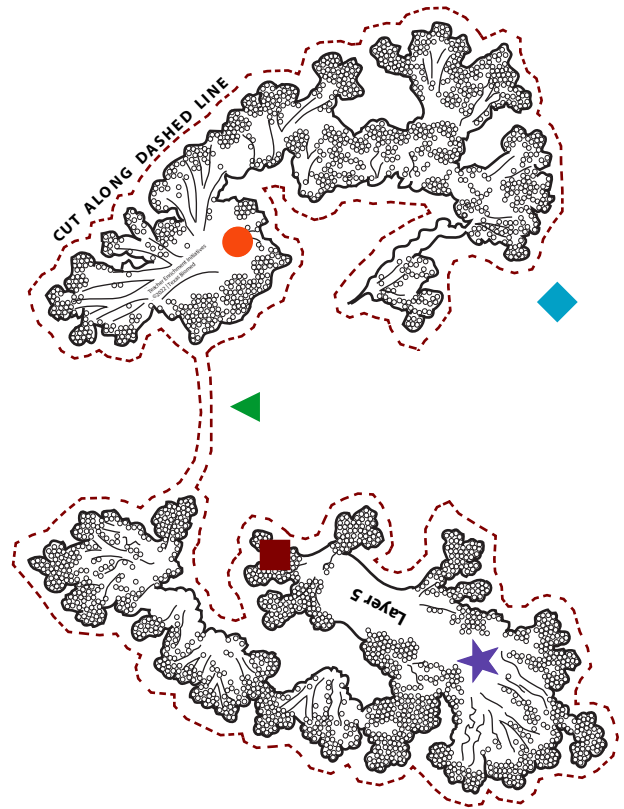

"Layers of the Lungs"
Layer Three: Back (Posterior) and Lungs

LESSON 1: MAPPING PULMO PARK | Activity 1B: Reverse Lung Dissection

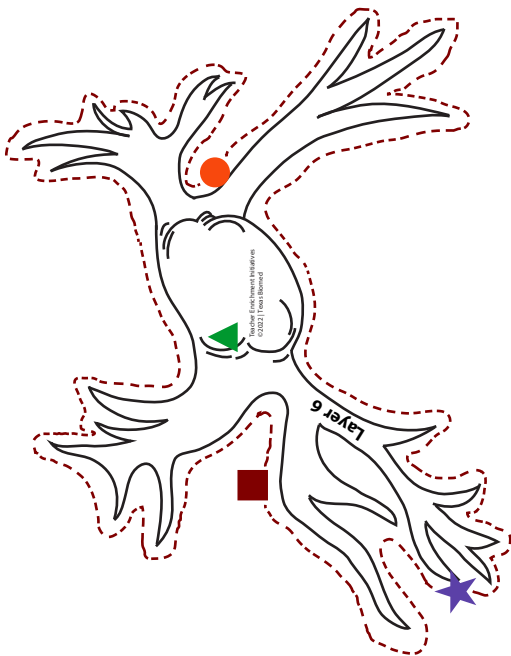

Layers of the Lungs

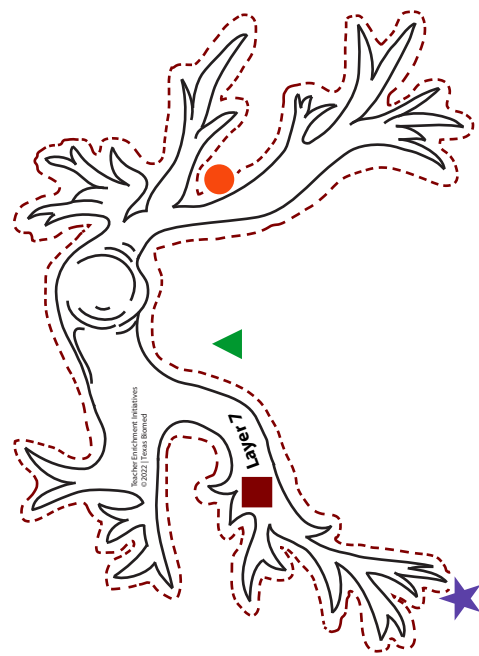

"Layers of the Lungs"
Layer Four: Bronchi

"Layers of the Lungs"
Layer Five: Alveoli

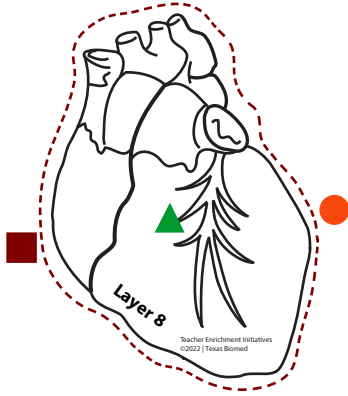

"Layers of the Lungs"
Layer Six: Pulmonary Arteries

"Layers of the Lungs"
Layer Seven: Pulmonary Veins

LESSON 1: MAPPING PULMO PARK | Activity 1B: Reverse Lung Dissection

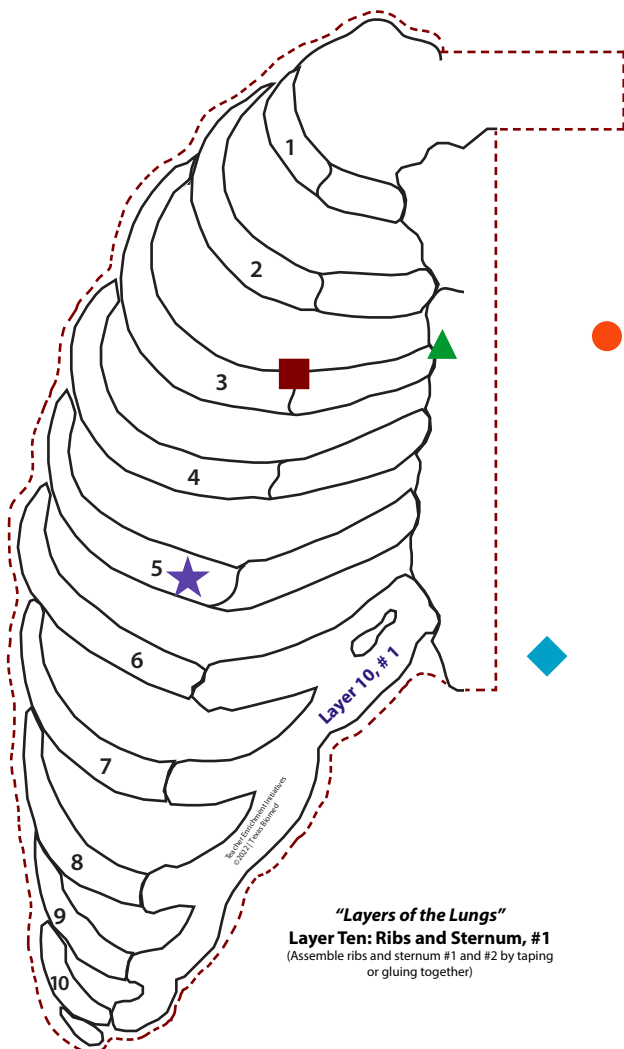

Layers of the Lungs

"Layers of the Lungs"
Layer Eight: Heart

"Layers of the Lungs"
Layer Nine: Front (Anterior) of Lungs

"Layers of the Lungs"
Layer Ten: Ribs and Sternum, #1
(Assemble ribs and sternum #1 and #2 by taping or gluing together)

"Layers of the Lungs"
Layer Ten: Ribs and Sternum, #2
(Assemble ribs and sternum #1 and #2 by taping or gluing together)
