

# LESSON 2: RESPIRATORY EXPLORATORY

## Activity 2B: *Under Pressure!*

### PROCESSING OUT

---

1. Analyze your observations and create an explanation for what you observed.
2. What part(s) of the respiratory system is represented by the marshmallow? By the marshmallow?
3. How does this experiment correlate to your lung function?
4. Although this activity required energy (pushing the plunger), breathing is passive function. Using your observations as evidence, explain why breathing is a passive function.
