IN-TRAC Hour September 2023 Events

all times Central

Thursday, September 7

Journal Club

[Join Zoom here](#)

12-1pm

Wednesday, September 20

IATA/DGR shipping training (in-person only)

Federal and international agencies strictly regulate the shipping of Dangerous Goods over public roads and by air transport. Shippers of Dangerous Goods must complete training and be certified by Texas Biomed through EHS. This includes all who handle and prepare packages of dangerous goods (including preparing paperwork) for shipment. Certification must be renewed every TWO YEARS or when there are significant changes to the regulations. This training course will cover Biological and infectious material (Class 6 Division 6.2) with considerations on common chemical preservatives and refrigerants.
